GETTING STARTED with Banner 7x: Oracle JInitiator Installation - Windows 2000

Introduction: To launch Banner 7x on any PC, it is necessary to download the ActiveX control 'Oracle JInitiator'. This is a one-time install per desktop with instructions that vary depending on your operation system (Windows 2000 or Windows XP). If prompted to load ActiveX control, follow the steps below to complete the installation.

Step 1: Verify Operating System

- Click start from main toolbar
- Right click My Computer
- Click Properties
- Click General tab

System Properties	<u>?</u> ×
General Network Identification	Hardware User Profiles Advanced
	System: Microsoft Windows 2000 5.00.2195 Service Pack 4 Registered to: Eastern Connecticut State Univ

This document contains instructions for computers running Microsoft Windows 2000. If Windows XP is indicated here, please refer to: GETTING STARTED with Banner 7x: Oracle JInitiator Installation from Windows XP.

Step 2: Launch Banner

- Type **ebanner** in the address line
- Press Enter

Step 3: Install Oracle JInitiator

• Click Yes to acknowledge Security Warning

C:\Documents and Settings\gillettee\Desktop\JInitiator Install Windows 2000-Banner7.doc 11/17/2005

• Click Next, WAIT (may take several seconds to complete installation)
