

GETTING STARTED with Banner 7x: Oracle JInitiator Installation from Windows XP

Introduction: To launch Banner 7x on any PC, it is necessary to download the ActiveX control 'Oracle JInitiator'. This is a one-time install per desktop with instructions that vary depending on your operation system (Windows or Windows XP). If prompted to load ActiveX control, follow the steps below to complete the installation.

Step 1: Verify Operating System

- Click start from main toolbar
- Right click My Computer
- Click Properties
- Click General tab

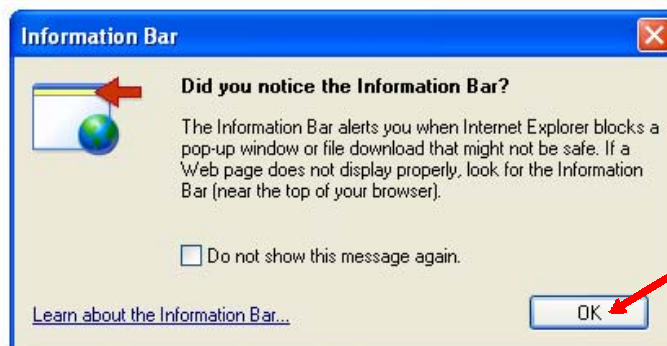

This document contains instructions for computers running Microsoft Windows XP. If Windows 2000 is indicated here, please refer to: GETTING STARTED with Banner 7x: Oracle JInitiator Installation from Windows 2000.

- Click OK to Exit

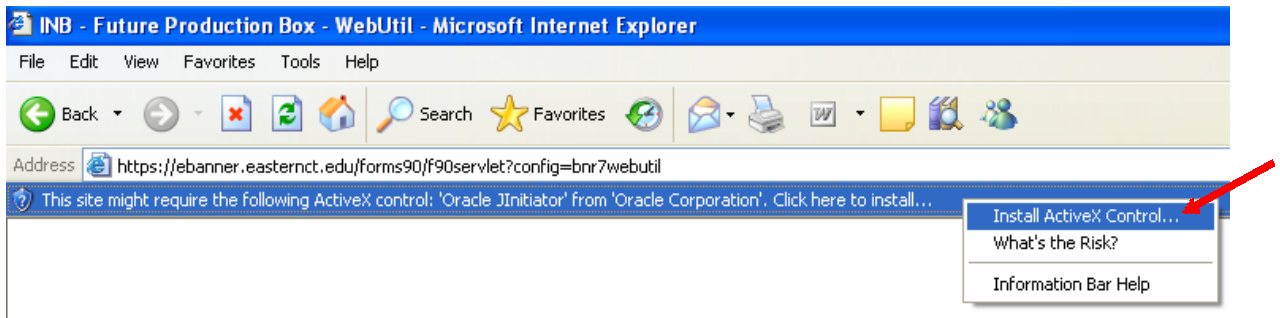

Step 2: Launch Banner

- Start Internet Explorer (IE) browser 
- Type **ebanner** in the address line
- Press Enter
- Click OK to acknowledge Information Bar - **A**
- Click Information Bar: the prompt to Install ActiveX control - **B**

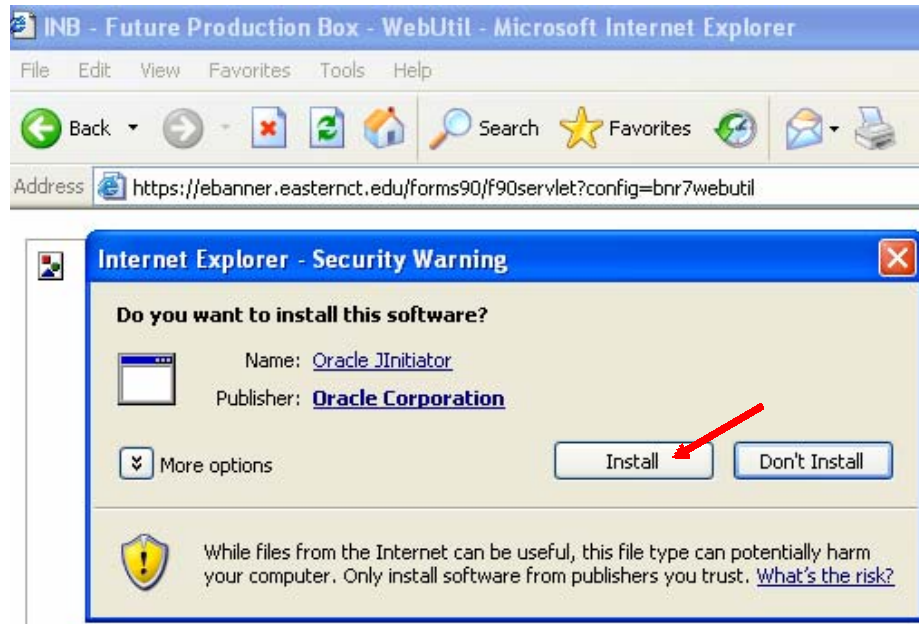

Step 3: Install ActiveX control Oracle JInitiator

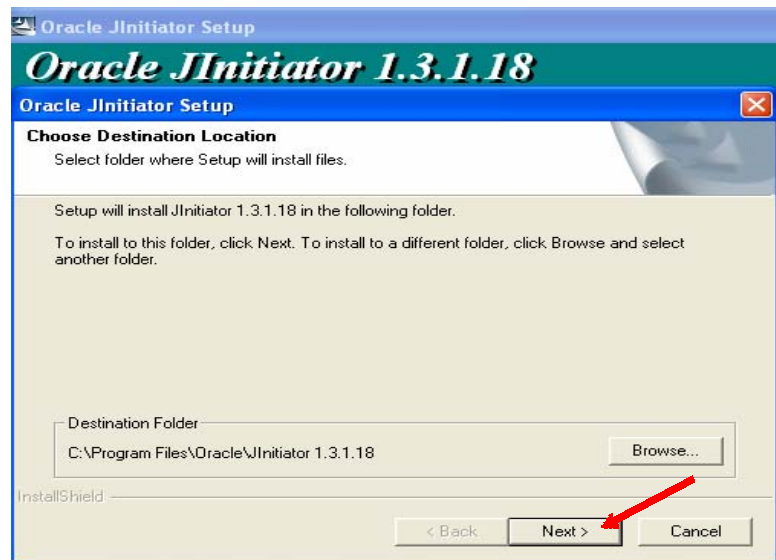

- Click 'Install ActiveX Control...'

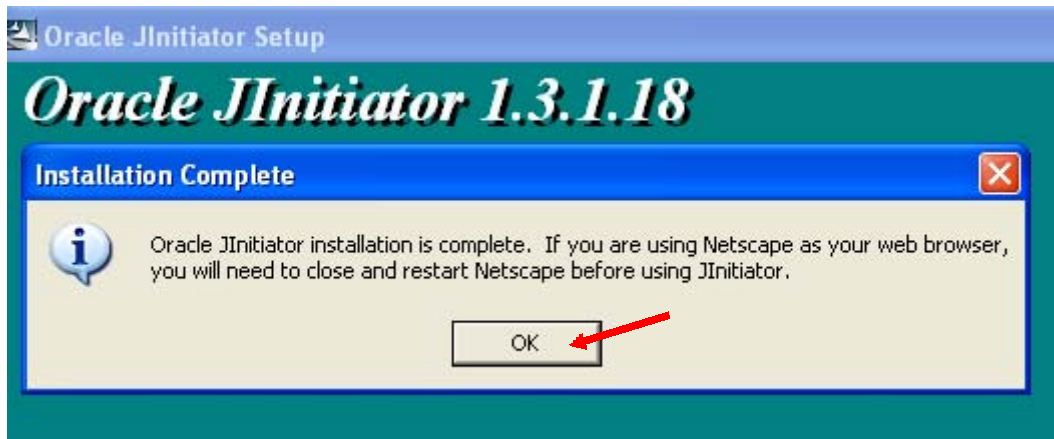

- Click Install

- Click Next

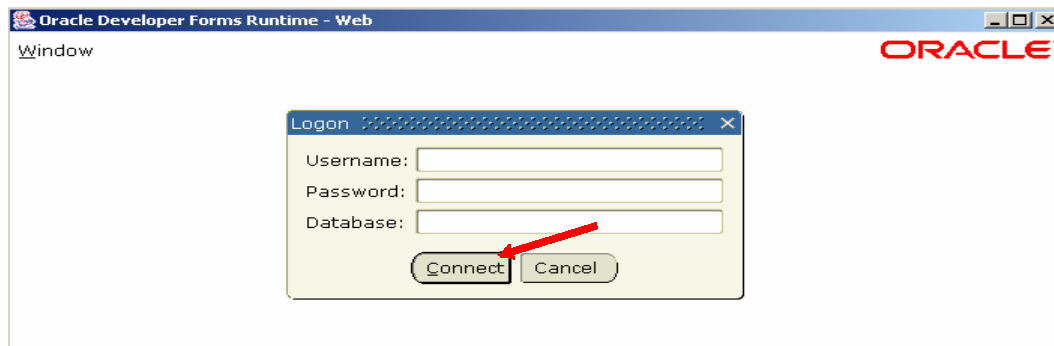

- Click OK

- WAIT, logon screen will be displayed

Step 4: Logon to Banner

- Enter your Username and Password
- Click Connect or press Enter

Reminder: The JInitiator install is a one-time process, only necessary the first time any user logs into Banner 7x on a given desktop (excluding Macs).
