Course Evaluations

When students have course evaluations available to complete, they will receive an email notification from **Course Evaluations** (courseeval@easternct.edu) with links to access the evaluations. Faculty will receive notifications when their students have evaluations to complete and a notification with the results when available.

This article instructs students and faculty on how to access course evaluations directly.

This article covers the following two options:

1. [Instructions for students to evaluate a course](#)
2. [Instructions for faculty to access a course evaluation](#)

Note: The course evaluation link is only **activated for students 21 days prior to the last day of their course section and will remain open for 4 days following the last day of the course section.**

To determine that date, look up the sections in eWeb - it is based on the end date of each section. As an example: shown below - the majority of sections run - 8/26 to 12/14. So based on the end date of 12/14 for these sections - minus 21 days = 11/23.
